

Ref: Sinclair Corp airing of "Stolen Honor"

Sinclairs' free of charge use of the public's airways, imposes upon them an obligation, by law, to serve the public interest. This mean spirited, pure partisan, muscle flexing, anti democratic usurpation is an exercise designed to be not, I say again, not in the public interest. I am complaining against it and Sinclair, et al.

I realize that the FCC can claim "prior restraint" as justification for doing nothing, although even a "word to the wise" telephone call costing nothing would have provided some respect; but the FCC's conduct in "rolling-over" to this Corporation is as reprehensible as Sinclairs' activity..

Sinclair's actions violate the spirit of the law and Sinclair ought not to be held harmless. I am complaining and request that any and all licensing held by Sinclair to the public airways currently in effect be suspended and future application for same by Sinclair be denied.

This complaint is to be officially dated immediately subsequent to Sinclairs' broadcasting of "Stolen Honor"
Thank you.
